

## Do your part for the environment

Start phoning with ECO DECT today – and you'll be helping prevent climate change. Plus, you'll be doing it with a phone that perfectly suits your lifestyle, because we offer the widest range of eco-friendly phones around.

## Go green all the way!

- › Buy fruit locally
- › Cook with lids on all your pots
- › Increase the pressure in your car tires

Buying an ECO DECT phone is one way to start helping the environment. To get more tips on how you can do your part – and find out more about our eco-friendly phones – head to:

**make-a-little-difference.com**

If you want to save the environment, put the pressure on.

Raising tire pressure even just slightly above recommended levels can lower fuel consumption by up to 3%.

## Find out more today

Go online and find the ECO DECT phone that's right for you – and the environment!  
**make-a-little-difference.com**

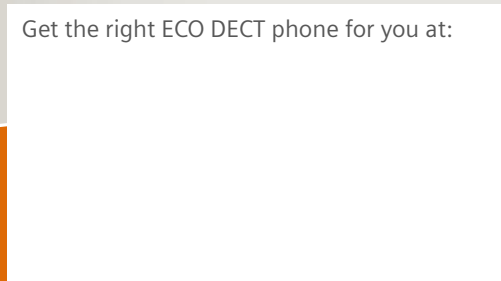

## Go straight to your local retailer

Our retailers are ready with answers to any questions you may have. Get them to recommend a phone that fits your phoning needs.

Promoting sustainably managed forests.

## SIEMENS

## Make a little difference

Choose an energy-saving ECO DECT phone from Gigaset

CORDLESS HOME COMMUNICATION

**Gigaset**

## Switch to ECO DECT

Now's your chance to make a difference. Buy a phone from Gigaset with new ECO DECT technology – and you'll have a phone that lets you:

- › help protect the environment
- › use up to **60% less energy**<sup>1</sup>
- › **enjoy variable reduction of transmitting power** according to the distance between your handset and base station
- › reduce transmitting power by 80% with ECO Mode<sup>2</sup> on selected models
- › in some cases reduce the transmitting power of both handset and base station to almost zero when handset is docked<sup>3</sup>

## It's the greener way to stay connected

If you want to save the environment, eat what's nearby.

Importing a basket of fruit from overseas puts more CO<sub>2</sub> into the air than the average family does when cooking for six months.

<sup>1</sup>In comparison to our conventional cordless phones  
<sup>2</sup>For all registered handsets – in comparison to when ECO Mode is not activated and our conventional cordless phones  
<sup>3</sup>With only 1 registered handset

# Go green with a phone from Gigaset

Now you can have the phone that's perfect for you – and preserve the environment at the same time
